SUBJ: PROPOSED NON-DOMESTIC WASTE SOURCE CONTROL PROGRAM  
(NDWSCP) FEE SCHEDULE FISCAL YEAR 1993-94

(FILE NO. AM920909)

The following is the proposed FY 1993-94 NDWSCP Fee Schedule which will be considered for adoption by the Sewer Authority Mid-Coastside Board of Directors at a public hearing scheduled for October 25, 1993.

This document identifies the methodology used in preparing the proposed Fiscal Year 1993-94 NDWSCP Fee Schedule, and includes tables summarizing the fees to be assessed.

There are two NDWSCP Fee Schedules:

- A. NDWSCP Preparation Fee Schedule
- B. NDWSCP Annual Operating Cost Fee Schedule

A. NDWSCP PREPARATION FEE SCHEDULE

The NDWSCP Preparation Fee Schedule (Table 1) allows SAM to collect from Permittees the costs associated with preparing the NDWSCP Ordinance and other Program elements.

This is a one time fee for first time NDWSCP Permittees. Consequently, Table 1 is also a summary listing of New Permittees for Fiscal Year (FY) 1993-94.

The methodology used to develop the NDWSCP Preparation Fee Schedule for FY 1993-94 is the same as that used for the FY 1992-93 Fee Schedule, with the exception noted below. Please refer to the FY 1992-93 Fee Schedule for a description of this methodology, taking into account this exception.

**Exception to FY 1992-93 Methodology:**

For FY 1993-94 we have eliminated the concept of Class I and Class II, and have replaced it with Permittee Categories. With regard to Preparation Fees, the correlation between Classes and Categories is as follows:

Permittee Class	Permittee Category
- Class I	R*, F*, A, M, X, C, P, L, S, H
- Class II	R, F, W

**Where:**

- o R is Restaurant, with flow greater than 275 gpd
- o R\* is Restaurant, with flow less than 275 gpd
- o F is Food / Meat / Fish Processing with flow greater than 275 gpd
- o F\* is Food / Meat / Fish Processing with flow less than 275 gpd
- o A is Automotive
- o W is Car Wash
- o M is Medical / Dental / Mortuary / Laboratory
- o X is Agriculture
- o C is Construction
- o P is Photo Processing / Printing
- o L is Dry Cleaning
- o S is Holding Tank Waste
- o H is Meeting Hall

**B. NDWSCP ANNUAL OPERATING COST FEE SCHEDULE**

The NDWSCP Annual Operating Cost Fee Schedule allows SAM to collect from Permittees the costs associated with carrying out the NDWSCP program for a given fiscal year. In this case, the fee schedule is developed for FY 1993-94 costs.

The following is a description of the tables used to develop the fiscal year 1993-94 NDWSCP Annual Operating Cost Fee Schedule.

**1) Table 2 "Determination of Annual Operating Cost Fee"**

This table identifies the number of inspections per Permittee per year, determination of cost per inspection and determination of Permittee Fee, as follows:

a) **Number of Inspections Per Permittee Per Year**

The number of inspections per permittee per year is based on Permittee Category and, for certain categories, Permittee Flow. The number of inspections is designed to insure Permittee compliance with the program, with Permittees with a greater potential for impact on the sanitary sewer system receiving a proportionally greater number of inspections.

Categories are as follows:

- o R is Restaurant
- o F is Food / Meat / Fish Processing
- o A is Automotive
- o W is Car Wash
- o M is Medical / Dental / Mortuary / Laboratory
- o X is Agriculture
- o C is Construction
- o P is Photo Processing / Printing
- o L is Dry Cleaning
- o S is Holding Tank Waste
- o H is Meeting Hall

Note, for Permittees receiving a single inspection, the inspection is a Field Inspection. For Permittees receiving multiple inspections, inspections may consist of Field Inspections, Meetings and Research.

b) **Determination of Cost Per Inspection**

- 1) The Hours Per Inspection is based on experience.
- 2) Cost Per Hour For Program is the program budget divided by the total annual inspector hours (2 days per week.)
- 3) Cost Per Inspection is the Hours Per Inspection multiplied by the Cost Per Inspection.

c) **Determination of Permittee Fee**

The Annual Operating Permit Fee is based on the annual inspection cost for a Permittee. The calculation is presented in the Table.

2. Table 3 "NDWSCP Annual Operating Cost Fee Schedule"

This table presents the Annual Operating Cost Fee for each Permittee. The table includes Permittee flow (when applicable) and the number of inspections per year.
